

INTER CORPS and UKLF

INTER CORPS CENTENARY TROPHY FRITHAM NEW FOREST DEC 83

The inter corps was run in conjunction with the fifth RASC Orienteering Competition over the now familiar Fritham area. This area is notable for the amount of fast 'yellow' areas but care is needed once into the 'white' or errors will (and were) be made. This event was a score event with the first 8 competitors scoring the maximum. It was good to see SOC competing and perhaps we should maintain more links with civilian clubs like this - though watch out for insurance.
