8. While the buses are not intended for individuals it may be possible to find places for some to fill up a bus. In this case selection will be made from the results of the UKLF Championships.

9. It is intended that the buses will leave from one or possibly two convenient locations (Aldershot and Larkhill?), and units and individuals will be responsible for the cost of their own travel to these locations.

BARRY BUDDEN

COMMENTS BY INDIVIDUAL COURSES PLANNER - DAY ONE

I hope you all enjoyed your respective courses. The weather certainly helped to make the championships into a very enjoyable occasion. The use of the area was planned to combine the need for good courses with the administration facilities available. I would like to think that this was achieved and I am grateful to those of you who took the time to express their appreciation. The average of winning times was just about right as per the guidelines with the 'B' course being slightly on the long side. For those of you who found that their legs were not long enough when running over the terrain, I sympathise.

COMMENTS BY RELAY CONTROLLER - DAY TWO

Judging by the comments about the relay courses Mr Dave Marshall got it just about right, I certainly was happy with his courses considering the area in which he had to plan. As with all events problems do crop up and I would like to thank those competitors and team captains, whom the problems affected either as individual or teams, for being patient and accepting my decisions with good grace. One point I must raise is that in all events it is the competitors responsibility to ensure that when he starts the race he has the correct map and description sheet. Team captains must make their teams aware of this before competing.

The results were produced on a PC using a BASIC programme written by WO2 S Sharpe of UNICOM. The information was then taken into Word Perfect as an ASCII file for formatting. Some amendments were required after the transfer, when it was discovered that some teams had changed their running order for the relays from that declared the night before.

The results have also been scrutinised to try and identify any obvious discrepancies that may have crept in due to keying errors(GIGO). If units do find any mistakes they want corrected they should inform Maj A Farrington, UNICOM, Worthy Down, Winchester SO21 2RG in writing.

Control cards will be kept for one month after the publication date of the results letter.
